

## Here is our 2018 Season estimated schedule.

The list below identifies the ripening order for our apple varieties. Use this list to help choose apple varieties which are ready to pick at different times throughout the season. The harvest dates listed here are approximate for northern Illinois and are dependent upon weather conditions. Please give us a call at 815-648-4141 before coming to pick your favorite variety. Even though our picking schedule is updated regularly during the harvest season, our picking schedule can change from hour to hour due to weather conditions and the number of visitors we have for U-Pick each day!
